The Future is Here: zSpace Lab Launched at ACCA

From left to right:

Atlanta College and Career Academy celebrated the grand opening of its new zSpace lab, the first augmented and virtual reality (AR/VR) classroom in Atlanta Public Schools. This innovative space provides students from various pathways, including automotive technology, carpentry, HVAC/R, dental science, and patient care, with an immersive, hands-on learning experience that simulates the skills they will need in their future careers.

From left to right: Harper Williams-Garner; Dillon Reinblatt; Auto Tech Instructor, Ms. Andrea Strommen; Abeni Wharton, Principal, Dr. Tasharah Wilson; Jasmin Anicasio Villanueva; Krystian Cosper; and APS Superintendent, Dr. Bryan Johnson.

ACCA Scholars Prepare to Compete

Automotive Technology, Cybersecurity, and Hospitality students will showcase their skills at the SkillsUSA State Leadership and Skills Conference in Atlanta from February 20th to 22nd, 2025. These talented individuals will compete against other top students from across the state in various technical and leadership competitions.
