IV. Principal's Report

STEM/STEAM Certification process. Dr. Bockman said she hope MHS can get through the certification process by the end of next school year.

Assistant Principal Cappelli is trying to push out pre-certification process to smooth the way.

Assistant Principal Cappelli said the pre-certification process is very closely aligned with what the Georgia Department of Education is looking for.

MHS is documenting the process, charting it out. APS, meanwhile, is looking to create a feedback process on each area. There's three levels to the certification process. Go Team member: "Do we think we'll get through level three by next year?" Assistant Principal Cappelli: "Yes."

Go Team member: "Steam certification is through Georgia Department of Education? Assistant Principal Cappelli: "Yes."

Go Team member: "Dr. Bracken is going to determine whether Signature Program and STEAM/STEM certification is worthwhile. Dr. Bockman: "Because of what we've done already, I'd really like to finish the STEM/STEAM certification process out." Dr. Bockman notes the STEAM/STEM certification is good for five years.

Dr. Bockman announced that SAT testing is coming up in April. "It'll be interesting to see what the jump in scores from the PSAT to SAT is."

Dr. Bockman continues: "I'm going to ask if there's any data we can pull that shows PSAT/SAT score differential."

Go Team Member suggest that more focus on test prep be put on sophomores than juniors. "Juniors are overwhelmed. I think starting early with sophomores will give them the opportunity to focus more on the process and get the foundation down. Juniors have so much going on."

G. Second Public Comment Period – no public comment. No one present.

E. Announcements: Go Team Member: Mock Trail Team has a debate this week.
